Do you really REALLY want something that you don't see here? Just ask! We can probably do it!

## *What is "Event Design?"*

The way we see it, event design is creating a COHESIVE look and feel for your event. We want to make sure your color scheme, mood, theme, and overall PERSONALITY are carried, visually, throughout all elements involved. Your invitations should set the mood, and thereafter your menus, programs, table settings, even something as small, but significant, as your favors should all meld perfectly. Wrap everything up with a matching thank you card and you'll understand why it's the little things that people notice.

Each Design Package begins with a free consultation, where we get to know you; what you like, what you dislike, colors, textures, themes you're drawn to. We then take all that information and create a "mood board" that can put all of those ideas, preferences, and overwhelming elements you've been bombarded with in one place. This mood board will be your vision, and will have images, colors, textures, fashion, and everything we create will follow this.

Are you SO overwhelmed that you just need to get all those thoughts coralled into one place, but know you can take it from there? The Bronze Package is probably for you. Have you suddenly come to the realization that planning a wedding can be a full-time job, and you just don't have the time to do all the things that it would take for your event to be everything you want it to be? The Platinum Package might be for you! Are you somewhere in between? We have packages for you too! So take a look below, and let us know how we can help you.
